Release Date: 2007/10/23

AVerTV BoxW7/W9 Plus (M098)

Infinite TV Enjoyment on Widescreen Monitor

AVerTV BoxW7/W9 Plus provide infinite TV enjoyment and high-definition (1920x1200, WUXGA) quality on wide LCD screen to users. Their great new feature of “Video Pause” enables users to catch crucial information, such as Lottery numbers and recipe, at the right moment on the screen. They also provide complete solution of plug and play to directly turn any VGA monitor into TV, and to be a multimedia entertainment center with turning on PC.

Functions of 13-channel preview, color/edge enhancement, cutting- edge progressive scan technology and 3D-motion adaptive de-interlace give users sharper images and 3:2/2:2 pull-down technologies allows for better picture quality than ever before. Moreover, advanced features of component input (YPbPr, 1080i), 10-bit color enhancement, and stereo sound on AVerTV BoxW9 Plus also enable users to experience ultra multi-media enjoyment with game console and video camcorder on widescreen monitor.
